Let's get singing!!!

The bridge is broken and the goats need to cross the river. Can you recycle and use materials to create a raft. You will need to test it does not sink. Use a small tub of money placed on top to make sure it is safe.

ADVICE AND USEFUL LINKS

When we use technology to contact people we don't always know who they are
- sometimes they can lie about their identity so we need to be really careful.

Things to look out for:

1

Being contacted online by someone you have never met before – you should always tell a parent or guardian about this.

2

Anyone who asks you to send a photograph – stop and think, who they are and why would they want this? Only share images with trusted people, such as family.

3

Someone asking you to share personal details such as your birthday, address, phone number, email address – someone can use these details to pretend to be you online.

DESIGN CHALLENGE

Create an eye-catching social media graphic (like a poster) we can use to encourage other children to stay safe online – our tops tips might give you some inspiration.

OUR TOP TIPS

1

Choose a good password and keep this secret. The best passwords have a combination of letters, numbers, other characters (such as !£\$%&*?). Avoid using your name, birthday, or birth year.

2

When you are online or using apps check your privacy settings to see if your information is public or private. Ask your parent or guardian if you need help to change your settings.

4

If a message makes you feel uncomfortable you don't have to reply. Always tell a parent or guardian if you are worried about anything you see online or on your phone.

3

Stop and think if someone online asks for your full name, address, phone number, school or a photograph. Don't share these details with anyone online.

5

Sometimes people can be horrible online, like they can when you are face to face. Be nice to other people and if you are upset by anything you should always tell a parent or guardian.

6

You can't always believe what you see on line, some of the information can actually be fake – this can include fake facts, images, videos and even people. If you haven't met someone in real life before you chat online be very careful as they may not be who they say.

Join us on Saturday 23 May for the Adventures at home festival
- proudly sponsored by **Media Molecule**.

It's all free, just tune in to our live online programme of acts and events on **our Youtube channel** and right here.

From 10.30am to 7.30pm you can enjoy:

- music performances
- football challenges for the whole family courtesy of England Women's Football Lioness star Jill Scott and more exciting things to come
- children's magic and comedy shows
- talks from a host of brilliant speakers, including Anna McNuff, Sally Kettle and Guilty Mother, Jo Wimble-Groves
- a range of fun "how-to" videos featuring arts, crafts and interesting things to do around the home - including Clever Chemicals videos from the Royal Society of Chemistry

We'll finish up with a camp building session from one of the Girlguiding activity centres, complete with a virtual campfire and sing-along.

Our festival is open to all – so invite your friends and family to join in too.
